

SCS 2208 - Rapid Application Development

Practical Sheet - 06

Question 01:

The image shows a mockup of a login form. The form has a purple header with the text "Login Form". Below the header are two input fields: "Email Address" and "Password". Under the "Password" field, there is a checkbox labeled "Remember me" and a link "Forgot password?". Below these is a large purple button labeled "Login". At the bottom of the form, there is a link "Not a member? Signup now".

- a) Create a login form for a Node application using **Passport.js**.
- b) Use the session authentication strategy with **Passport.js**.
- c) Connect **Passport** to a **MongoDB** database to store user data.
- d) Authorize only logged-in users to access a page.

Question 02:

Nodejs file upload with MongoDB
